TECHNICAL SKILLS

JavaScript jQuery React.js Redux Git Ruby Ruby on Rails SQL RSpec HTML5 CSS3 Sass

PROJECTS

Mead (Rails, React/Redux) Live | Github

Single-page blogging app inspired by Medium

- Leverages global Redux state and custom SQL queries to reduce the number of AJAX requests to the API, improving speed and user experience.
- Reuses common React components (Forms, Stories, etc) and establishes polymorphic relations on the backend, helping to maintain a DRY codebase.
- Utilizes asynchronous JavaScript to generate user tooltips, increasing user interaction on each page.
- Implements mobile-first design, incorporating Sass mixins to accommodate all screen sizes.

headBanger (React, Canvas) Live | Github

Interactive drumming app

- Applies currying to manage local state and bind the proper context for listeners.
- Implements highly reusable components in order to minimize manual DOM manipulation.

OPEN SOURCE

T-Writer (JavaScript) Demo | Github

Native typewriter effect, without compromises or dependencies

Heads-Up (JavaScript) Demo | Github

Sticky headers that hide on scroll

cDOM (JavaScript) Demo | Github

A lightweight DOM manipulation module, inspired by jQuery

EXPERIENCE

Fannie Mae - *Associate* Aug 2016 - May 2018

- Lead/organized the 2017 Help the Homeless Basketball Tournament, encouraging hundreds of employees to participate and raising over $7,000 for charity.
- Priced intramonth Agency REMIC and GT securities, and analyzed Non-Agency spreads on CASE and Legacy RMBS for the Capital Markets Pricing team.
- Lead the transition from hardcopy to paperless journal entry preparation, creating/leading weekly trainings and engaging with the team on their progress.

EDUCATION

App Academy **New York, NY**

1000-hour rigorous web development course with <3% acceptance rate May 2018 - Aug 2018

George Washington University, School of Business **Washington, DC**

Bachelor of Business Administration, Concentration in Finance *GPA: 3.9* Sep 2012 - May 2016
